## **Cancer Partners of Nebraska Welcomes Dr. Swetha Yadav, Medical Oncologist**

Cancer Partners of Nebraska (Cancer Partners) is pleased to welcome Dr. Swetha Yadav, board-certified medical oncologist and hematologist, to its growing team of physicians. Her arrival marks an exciting step forward as Cancer Partners expands services to the Kearney community through a partnership with Kearney Regional Medical Center (KRMC).

Together, Cancer Partners and KRMC will offer comprehensive outpatient cancer care at the new, state-of-the-art Kearney Cancer Center, a 25,000-square-foot facility scheduled to open next month.

Dr. Yadav earned her medical degree from Bangalore Medical College and holds a Master of Public Health from the University of Alabama at Birmingham (UAB). She completed her internal medicine residency at the University of Alabama School of Medicine in Montgomery and her hematology/oncology fellowship at UAB. Most recently, she practiced in Texas.

“I’m honored to join the Cancer Partners’ team and bring a collaborative, patient-centered approach to cancer care in Kearney and surrounding communities,” said Dr. Yadav. “It’s deeply rewarding to walk alongside patients in their journey and provide care tailored to their individual needs.”

Located between KRMC and Yanney Heritage Park, the Kearney Cancer Center will offer:

- Radiation and medical oncology
- Infusion and chemotherapy services
- A state-of-the-art linear accelerator
- Onsite CT and PET diagnostic imaging
- Certified mastectomy fittings
- Access to national clinical trials through CPN’s affiliation with MD Anderson via the NCI clinical trials network — the first and only community oncology practice in Nebraska with this designation

Cancer Partners is the largest independent community oncology practice in Lincoln, with a team of 17 physicians specializing in medical oncology, radiation oncology, gynecologic oncology, urologic oncology, and a wide range of supportive services. Cancer Partners of Nebraska also serves 13 outreach sites across rural Nebraska. To learn more, visit [cancerpartners.com](http://cancerpartners.com).
